

ASPE Issue BRIEF

# ADDENDUM TO THE HEALTH INSURANCE MARKETPLACE: <br> MARCH ENROLLMENT REPORT <br> For the period: October 1, 2013 - March 1, 2014 

March 11, 2014
This Addendum contains detailed State-level tables highlighting enrollment-related information for the Health Insurance Marketplace (Marketplace hereafter) for the October 1, 2013 to March 1, 2014 reporting period. ${ }^{1}$ These tables include data for states that are implementing their own Marketplaces (also known as State-Based Marketplaces or SBMs), and states with Marketplaces that are supported by or fully run by the Department of Health and Human Services (including those run in partnership with states, also known as the Federally-facilitated Marketplace or FFM).

## LIST OF TABLES

| Appendix A: | Characteristics of Marketplace Plan Selection by Gender, Age, <br> Metal Level, and Financial Assistance, 10-1-2013 to 3-1-2014 |  |
| :--- | :--- | :--- |
|  | $\bullet$ A2 - By Gender and State | Page 2 |
|  | $\bullet$ A3 - By Age and State | Page 5 |
|  | $\bullet$ A4 - By Metal Level and State | Page 7 |
|  | $\bullet$ A5 - By Financial Assistance and State | Page 10 |
| Appendix B: | Additional Characteristics of FFM Marketplace Plan <br> Selections, 10-1-2013 to 3-1-2014 |  |
|  | $\bullet$ B2 - By Gender and Age and State | Page 13 |
|  | $\bullet$ B3 - By Gender and Metal Level and State | Page 16 |
|  | $\bullet$ B4 - By Financial Assistance Status and Metal Level and State | Page 19 |
|  | $\bullet$ B5 - By Metal Level and Age and State | Page 22 |

| North Dakota | 5,238 | 5,237 | 53\% | 47\% |
| Ohio | 78,925 | 78,912 | 56\% | 44\% |
| Oklahoma | 32,882 | 32,878 | 56\% | 44\% |
| Pennsylvania | 159,821 | 159,806 | 56\% | 44\% |
| South Carolina | 55,830 | 55,827 | 58\% | 42\% |
| South Dakota | 6,765 | 6,763 | 55\% | 45\% |
| Tennessee | 77,867 | 77,860 | 56\% | 44\% |
| Texas | 295,025 | 294,995 | 57\% | 43\% |
| Utah | 39,902 | 39,893 | 53\% | 47\% |
| Virginia | 102,815 | 102,802 | 56\% | 44\% |
| West Virginia | 10,599 | 10,599 | 58\% | 42\% |
| Wisconsin | 71,443 | 71,434 | 56\% | 44\% |
| Wyoming | 6,838 | 6,837 | 56\% | 44\% |
| FFM Subtotal | 2,621,086 | 2,620,780 | 56\% | 44\% |
| MARKETPLACE TOTAL, All States | 4,242,325 | 4,200,190 | 55\% | 45\% |

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in this table represent cumulative Marketplace enrollment-related activity for 10-1-13 to 3-1-
14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the

Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) Oregon - Oregon's enrollment data distributions by gender are estimates based on analysis of enrollment files sent to issuers through December 31, 2013. The total rolls up to actual total QHP enrolled (plan selection) individuals, less some individuals for whom data were unavailable. Cover Oregon will update with actuals as soon as its electronic reporting application is configured and tested to accurately report enrollment breakouts.
(5) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in this table represent cumulative Marketplace enrollment-related activity for 10-1-13 to 3-1-14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) Kentucky - Kentucky's enrollment data distributions by age are for the time period of 12/21/13 through 3/1/14.
(5) Oregon - Oregon's enrollment data distributions by age are estimates based on analysis of enrollment files sent to issuers through December 31, 2013. The total rolls up to actual total QHP enrolled (plan selection) individuals, less some individuals for whom data were unavailable. Cover Oregon will update with actuals as soon as its electronic reporting application is configured and tested to accurately report enrollment breakouts.
(6) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

| West Virginia | 10,599 | 10,599 | 12\% | 67\% | 21\% | 0\% | 0\% |
| Wisconsin | 71,443 | 71,443 | 19\% | 71\% | 9\% | 1\% | 1\% |
| Wyoming | 6,838 | 6,838 | 21\% | 66\% | 8\% | 5\% | 0\% |
| FFM Subtotal | 2,621,086 | 2,621,075 | 16\% | 67\% | 11\% | 5\% | 1\% |
| MARKETPLACE TOTAL, All States | 4,242,325 | 4,242,314 | 18\% | 63\% | 11\% | 6\% | 1\% |

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in this table represent cumulative Marketplace enrollment-related activity for 10-1-13 to 3-1-14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace
or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as preeffectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) The FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers selected more than one plan type in their state (for example, some consumers have enrolled in both a health plan and a standalone dental plan). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total. To the extent possible, duplication associated with standalone dental plan selection has been removed from the data shown in this table.
(5) Kentucky - Kentucky's enrollment data distributions by metal level are for the time period of 12/21/13 through 3/1/14.
(6) Oregon - Oregon's enrollment data distributions by metal level are estimates based on analysis of enrollment files sent to issuers through December 31, 2013. The total rolls up to actual total QHP enrolled (plan selection) individuals, less some individuals for whom data were unavailable. Cover Oregon will update with actuals as soon as its electronic reporting application is configured and tested to accurately report enrollment breakouts.
(7) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

## APPENDIX TABLE A5

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in these tables represent cumulative FFM Marketplace enrollment-related activity for 10-1-13 to 3-1-
14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace
who have selected a plan through the FFM (with or without the first premium payment having been received directly by the Marketplace
or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as preeffectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

| FFM Subtotal | 1,147,136 | 1,147,132 | 17\% | 65\% | 12\% | 6\% | 1\% |

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in these tables represent cumulative FFM Marketplace enrollment-related activity for 10-1-13 to 3-1-14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace
or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as preeffectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) The FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers enrolled in more than one plan type in their state (for example, some consumers may have enrolled in both a health plan and a standalone dental plan). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total. To the extent possible, duplication associated with standalone dental plan selection has been removed from the data shown in this table.
(5) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

## APPENDIX TABLE B4

| FFM Marketplace Plan Selection by Financial Assistance Status, Metal Level and State (1) 10-1-2013 to 3-1-2014 |  |  |  |  |  |  |  |

| FFM Subtotal | 390,553 | 390,551 | 30\% | 26\% | 26\% | 13\% | 7\% |

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding.
(1) Unless otherwise noted, the data in these tables represent cumulative FFM Marketplace enrollment-related activity for 10-1-13 to 3-1-14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as preeffectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) The FFM subtotals for each metal tier type do not sum to the total number of Plan Selections With Available Data on Metal Level due to instances where consumers enrolled in more than one plan type in their state (for example, some consumers have enrolled in both a health plan and a standalone dental plan, which may have different metal levels). As a result, the corresponding percentages also do not sum to 100 percent. This also affects the data for the Marketplace total.
(5) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.

## APPENDIX TABLE B5

Notes:
"N/A" means that the data for the respective metric is not yet available for a given state. Percentages in this table have been rounded. Some numbers may not add to totals due to rounding. Data distributions for States with very small numbers of Marketplace plan selections for a given metal level have been suppressed.
(1) Unless otherwise noted, the data in these tables represent cumulative FFM Marketplace enrollment-related activity for 10-1-13 to 3-1-
14. For additional methodological information, please refer to Appendix D of this report.
(2) For each metric, the data represent the total number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan (with or without the first premium payment having been received directly by the Marketplace or the issuer) during the reference period, excluding plan selections with unknown data for a given metric. This is also known as pre-effectuated enrollment.
(3) In some cases, the data for certain characteristics of Marketplace plan selections are not yet available. For this reason, for each metric, we have calculated the comparable percentages based on the number of plan selections with known data for that metric.
(4) Idaho and New Mexico are Federally supported SBMs for 2014; they are using the FFM platform for 2014.
